[Ibadan, Nigeria]

EDUCATION

University of Ibadan

B.Sc. Computer Science

Faculty of Computing

CGPA: 3.91/5.00

Expected Graduation: [November
2030]

SKILLS

- Python (Biopython)
 - Java
 - SQL
 - VS Code
 - Git/GitHub
 - Data Analysis

LANGUAGE

- English (fluent)
- Japanese (learning)
- ASL (learning)

OKELEYE TOMILOLA

Computer Science Student | Bioinformatics & Computational Research

SUMMARY

Computer Science student at the University of Ibadan with an interest in bioinformatics, computational biology and data driven research. Developing skills in Python, SQL and biological sequence analysis through academic and independent projects. Seeking a SIWES placement or internship to apply, grow/expand my technical skills in a real-world research or technology environment.

PROJECTS

DNA Sequence Analysis & Visualization Python, SQL, Matplotlib

- a Python-based pipeline to analyze DNA sequences, calculate GC content, store analytical results in SQL, and generate visualizations to explore sequence characteristics.
- Project Link - https://github.com/Cassismure/dna_sequence_analysis.git

Academic Programming Projects University of Ibadan

- Grade Checker | python (A modular Python application for processing student grades, separating input, logic, and output functionality).
- Java Programming and OOP projects (Developed academic Java applications demonstrating object-oriented programming, methods, classes, data processing, and problem-solving)

Portfolio Website [<https://cassismure.github.io/>] HTML, CSS, Javascript, Github Pages

- Designed and deployed a responsive personal portfolio presenting my computer science and bioinformatics interests, skills, research direction, and creative work

SQL Query Project SQL

- Series of SQL queries on a synthetic clinical genomics dataset.
- Project Link - <https://github.com/Cassismure/sql-bioinformatics-practice.git>
